

Guide for authors

The articles are published in **English**. Before being accepted for publication, all the articles go through a double blind review process. The manuscripts should be submitted by e-mail to oeconomica@econ.ubbcluj.ro

The manuscripts should follow these guidelines:

(1) The text should have between 10 and 20 pages (orientation: Portrait), not numbered, recto only, A4 format, characters Arial 10, and spacing "Single". Margins: top & bottom: 4.8 cm, left & right: 4 cm, header & footer: 4.8 cm. Please see the template uploaded on the webpage.

(2) The first page (which will be eliminated in order to make the evaluation, by one of the Advisory Board members, anonymous) must contain the title of the article, the author's name; his/her complete identification information (institutional affiliation, academic title, professional address, phone, E-mail) and acknowledgements or potential thanks for the technical and/or the financial help. The title must be precise, clear and in agreement with the main theme of the text. Except the first page, the authors must make sure that they cannot be identified when reading the manuscript.

(3) The second page will contain the title of the article and an abstract (in English) of 5-10 lines, which should present the main results of the article. The summary must inform the reader about the content of the article. The summary must be followed by the JEL Classification and by 3-5 keywords in English which define best the article.

(4) The text will start properly on page 3.

(5) In the introduction, the author must present the relevance of the article for the respective field and must review the main results obtained by the previous literature. The conclusions should summarize clearly the results and the consequences.

(6) The presentation of the bibliographical references:

- In the text the references quotes will appear between brackets, with the name and the publication date, e.g.: (Denico, 2017).

- For two co-authors they will use for example (Dixit and Stiglitz, 1977). - In the case of three or

more than three authors, only the first will be mentioned, under the form (Brooks et al., 1998).

- If two references have the same author and the same publication year, they will be differentiated through letters (McFadden, 1984a). These letters will also appear in the bibliography. At the end of the article the references will be presented as follows:

Quotes of personal works:

If the author(s) want(s) to make reference to one or several personal works, it is essential that the used formulation preserve his anonymity. In the first sent version, before being accepted for publication, if the quotation of a personal work is absolutely necessary, the author may use the formulation (author, 2001) both in the text and in the bibliography. The bibliographical references will be completed after the article is accepted for publication.

(7) After the article is accepted for publication, the final and complete version of the article must be sent by E-mail. The article will be written in Microsoft Word.

(8) *Studia Universitatis Babeş-Bolyai Oeconomica* requires the exclusivity of the manuscripts. The manuscripts should be original papers and the same article must not be proposed simultaneously to other journals.
